

GYMPIE SHOW

Celebrating our community

2027 SITE HOLDER INFORMATION GUIDE

WELCOME TO A VERY SPECIAL GYMPIE SHOW

150 Years of Agriculture, Community and Show Spirit

In 2027, the Gympie Show reaches an extraordinary milestone - 150 years of bringing our community together.

Since 1877, generations of volunteers, exhibitors, competitors, businesses, agricultural producers, community organisations, sponsors and Show families have contributed to what the Gympie Show is today. Across those generations, the Show has remained a place where agriculture meets community; where local talent, industry and enterprise are showcased; where people learn, compete and connect; and where traditions are celebrated alongside new ideas.

Our 150th year is much more than an anniversary. It is an opportunity to celebrate everything that has been built over the past century and a half while welcoming the wider Gympie Region to be part of the Show's next chapter. Our Strategic Direction recognises this milestone as an opportunity to broaden participation, deepen community connection and celebrate the people who make the Show possible.

As a Site Holder, you are an important part of that story.

Whether you are joining us as a food vendor, market trader, local business, agricultural or machinery exhibitor, commercial display, community organisation or specialist retailer, you help create the colour, variety, atmosphere and experience that our patrons remember.

The Gympie District Show Society's purpose is to celebrate, connect and strengthen the Gympie Region through agriculture, education, community participation and the enduring traditions of the Gympie Show. Our vision is for a united, future-ready Show that remains proudly agricultural and distinctly Gympie while continuing to evolve for future generations.

In our 150th year, we want every part of the Show to contribute to an exceptional visitor experience - from the agricultural competitions and entertainment through to the food, shopping, displays and conversations happening throughout the grounds.

We are delighted to have you joining us.

Welcome to the 2027 Gympie Show - and thank you for being part of 150 years of Show history.

ONE SHOW. STRONG FUTURE.

ABOUT THIS GUIDE

This Site Holder Information Guide contains the practical and operational information you need to prepare for and participate in the Gympie Show.

For the purposes of this Guide, **Site Holder** includes food vendors, market vendors, retailers, trade exhibitors, commercial and promotional displays, machinery exhibitors, community organisations and other businesses or organisations occupying an approved Site.

This Guide forms part of your Agreement.

As outlined in your Site Holder Agreement, your agreement with Gympie District Show Society Inc. (GDSS) comprises:

1. your Site Holder Agreement and Special Conditions;
2. your approved Application;
3. this Site Holder Information Guide; and
4. any subsequent written variation or approval.

Please ensure the person responsible for your Site, together with relevant employees, contractors and volunteers, reads this Guide before arriving at the Showgrounds.

Where this Guide and the Site Holder Agreement differ, the order of precedence contained in the Site Holder Agreement applies.

QUICK REFERENCE - 2027

ITEM	DETAILS
SHOW DATES	Thursday May 13th – Saturday May 15th 2027
SHOWGROUNDS	77 Exhibition Road, Southside QLD 4570
SHOW OFFICE	John Mawhinney Building, Gympie Showgrounds
GENERAL ENQUIRIES	07 5482 1721
SPACE CONTACT	Chief Steward: Dave Warren 0407 132 565 Space Contact: Sally Newman 0412 780 3559
EMERGENCY CONTACT DURING SHOW	TO BE CONFIRMED
SECURITY CONTACT DURING SHOW	TO BE CONFIRMED
BUMP-IN	Monday 10th May – 8.00am – 5.00pm Tuesday 11th May – 8.00am – 5.00pm Wednesday 12th May – 8.00am – 7.00pm
FINAL SET-UP DEADLINE	7.00PM - Wednesday May 12th, 2027 No Bump-In will occur on Thursday 13th May
VEHICLE CLEARANCE ON SHOW DAYS	TO BE CONFIRMED – currently 8.00am DAILY
BUMP-OUT	Saturday 15th, 2027 Machinery Alley Only - 4.00PM *(conditions apply)* All other Precincts – 9.00PM
FIRST AID LOCATION	TO BE CONFIRMED
PASS COLLECTION	Gympie Show Office

1. YOUR SHOW PRECINCT

Site Holders will generally be approved for a precinct or general area of the Showgrounds rather than necessarily being allocated a numbered physical site before arrival.

2027 precincts may include areas such as:

- Eat Street
- Grazing Alley
- Traders Lane
- Machinery Alley
- Indoor Pavilion Sites
- Large Outdoor Sites
- Showbag Central
- other outdoor trade or commercial areas identified by GDSS.

Your Site Agreement will identify your approved precinct and the frontage, dimensions, square metreage or other Site area approved for your operation.

Your exact position may be confirmed during bump-in.

Particularly in outdoor food, market and trade areas, the precise positioning of Site Holders can depend upon the order in which vehicles, vans, trailers and displays arrive.

GDSS may therefore adjust the planned order of Site Holders during bump-in to enable vehicles and displays to be positioned safely and efficiently and to avoid the unnecessary manoeuvring of large vehicles between Sites that are already established.

Any preliminary map or indication of position should therefore be treated as **indicative only**, unless GDSS has specifically confirmed a fixed Site.

Do not begin setting up until a GDSS Space Steward has confirmed your final position.

2. BEFORE YOU ARRIVE

Before travelling to the Showgrounds, please make sure that:

1. your Site Holder Agreement has been signed and returned;
2. all required Site fees and other charges have been paid;
3. your Certificate of Currency is current and has been provided to GDSS;
4. all required licences, permits and certificates have been supplied;
5. your business and on-site contact details are current;
6. the footprint you have advised GDSS accurately reflects everything you are bringing;
7. your required electricity supply has been approved;
8. additional worker passes have been ordered where required;
9. high-visibility safety vests/clothing is packed for all personnel involved in bump-in and bump-out;
10. food-vendor requirements have been completed where applicable;
11. any special display, machinery, demonstration, generator or other approval has been obtained; and
12. you have read this Guide and made relevant information available to your staff and contractors.

If anything significant about your operation has changed since your application was approved, please contact GDSS **before arriving.**

3. KNOW YOUR FULL SITE FOOTPRINT

The area you have booked must accommodate your entire operation.

When considering your footprint, remember to include:

Food vans and trailers • tow bars and drawbars • marquees • awnings when fully extended • counters • tables and chairs • signs • refrigeration • storage • stock • bins • machinery • display vehicles • securing systems and any other equipment associated with your Site.

Nothing should unexpectedly extend into the neighbouring Site, roadway, pedestrian route or public area.

If you discover that your operation is larger than the Site area approved for you, contact GDSS as soon as possible. Additional space cannot be guaranteed.

4. BUMP-IN AND SITE SET-UP

Dates: Monday 10th May – Wednesday 12th May, 2027
Times: Monday & Tuesday – 8.00am – 5.00pm, Wednesday – 8.00am – 7.00pm
Entry Gate: Main Gate at Bill Fallon Way located at the Exhibition Road entrance.

On arrival at the Showgrounds:

1. Enter through the designated Site Holder entry.
Follow signage and directions from traffic controllers and GDSS personnel.

2. Report to the Show Office/designated Site Holder check-in point before setting up.

3. Advise staff that you are ready to bump in.

4. A Space Steward will confirm your precinct and direct you to your final Site position.

5. Do not establish your Site until that position has been confirmed.

PLEASE BE PATIENT DURING BUMP-IN

Show bump-in involves many vehicles, food vans, trailers, marquees, machinery and displays arriving over a relatively short period.

Outdoor Site Holders may not necessarily be placed in the order shown on a preliminary layout. Space Stewards may change the sequence of Sites to make vehicle movements and set-up safer and more efficient.

Please follow Steward directions and do not independently choose or relocate your Site.

HIGH-VISIBILITY CLOTHING – MANDATORY DURING BUMP-IN

All Site Holders and their personnel or contractors must always wear a high-visibility safety vest or other approved high-visibility clothing while on the Showgrounds during bump-in.

This requirement applies while vehicles, trailers, machinery and equipment are being moved throughout the grounds.

Anyone not wearing appropriate high-visibility clothing may be asked to leave the operational area until they comply.

5. VEHICLES DURING BUMP-IN

Vehicle movements during bump-in must be kept to the minimum necessary to unload and establish your Site.

Please:

a. travel at no more than the posted Showgrounds speed limit of 10kph;
b. follow all traffic-controller and GDSS directions;
c. give pedestrians and workers priority;
d. do not block roads, gateways, emergency routes or adjoining Sites;
e. unload efficiently;
f. move your vehicle when requested; and
g. ensure someone can be contacted if a vehicle is left temporarily unattended.

Large vehicles, machinery, food vans and trailers may be given specific arrival or access instructions.

6. SITE PRESENTATION

We want the 150th Gympie Show to look exceptional.

Site Holders are asked to present clean, professional and inviting Sites that positively contribute to the overall Show experience.

Please keep:

a. signage professionally presented and secure;
b. storage and packaging reasonably screened from patrons;
c. rubbish contained;
d. walkways clear;
e. tables, counters and displays tidy;
f. electrical leads and hoses appropriately managed;
g. Site infrastructure within your allocated boundaries; and
h. your Site well maintained throughout all three days.

You are encouraged to embrace the celebratory atmosphere of the 150th year in your Site presentation where appropriate.

7. INDOOR SITES

Indoor Site Holders must remain within their approved Site area and take care not to damage pavilion infrastructure.

Do not attach items to walls, floors, ceilings, doors or fixtures by drilling, nailing, screwing or another damaging method without approval.

Displays must not obstruct:

a. aisles;
b. doors;
c. emergency exits;
d. firefighting equipment;
e. electrical infrastructure;
f. ventilation; or
g. neighbouring Sites.

INDOOR MARQUEES AND GAZEBOS

Marquees, gazebos and similar temporary display structures are permitted within Indoor Sites, provided they:

a. fit completely within the approved Site;
b. are safely erected and maintained;
c. do not obstruct access or emergency infrastructure; and
d. comply with the temporary-structure requirements in this Guide and Site Holder Agreement.

GDSS may require a structure to be repositioned, modified, lowered, secured or removed if a safety, fire, access or operational concern arises.

Activities involving cooking, heating, LPG, naked flame, fumes, smoke or significant heat within a pavilion require prior approval.

8. OUTDOOR SITES

Outdoor Site Holders should come prepared for normal outdoor-event conditions including wind, rain, heat, dust, wet or uneven ground and changing weather.

Your equipment, Site infrastructure and temporary structures must be appropriate for outdoor use.

GDSS may change access, traffic movements, Site arrangements or temporary-structure requirements where weather or ground conditions make this necessary.

9. MARQUEES, GAZEBOS AND TEMPORARY STRUCTURES

This is an important safety requirement.

Every marquee, gazebo, tent, awning, shade structure and other temporary structure must be:

fit for purpose • structurally sound • safely erected • adequately restrained • maintained in a safe condition throughout the Show.

Structures should be erected, restrained and used having regard to the manufacturer's requirements, structure size and configuration, attachments and walls, location, surface and foreseeable weather conditions.

WEIGHTS AND BALLAST

Where weights or ballast are used, they must be purpose-appropriate and sufficient to prevent the structure moving, lifting, overturning or collapsing.

Weights and securing systems must themselves be positioned so they do not create a hazard for patrons.

A bag containing a small amount of sand, a loose weight or another improvised item may not necessarily provide adequate restraint simply because it has been placed beside a marquee leg.

GDSS may ask you to provide manufacturer's information or other evidence demonstrating that a structure has been appropriately secured.

WEATHER

Site Holders remain responsible for monitoring and maintaining their structures as conditions change.

GDSS may direct that structures be:

re-secured • modified • lowered • closed • partially dismantled • completely dismantled or removed

where reasonably necessary for safety.

Any inspection by GDSS does ***not*** constitute structural certification or transfer responsibility for the structure to GDSS.

10. ANCHORING, GROUND PENETRATION AND UNDERGROUND SERVICES

Do not place pegs, stakes, star pickets, ground anchors or similar items into the ground without GDSS approval.

Do not excavate, trench or drill into Showground surfaces without permission.

The Showgrounds contain underground infrastructure and services, so an apparently clear patch of ground should never be assumed to be suitable for ground penetration.

Where pegs are not approved, appropriate weighted or non-ground-penetrating systems must be used.

11. SHOW TRADING HOURS

Site Holders are expected to remain open, adequately staffed and operating for the mandatory hours applying to their precinct.

AREA	THURSDAY	FRIDAY	SATURDAY
Indoor/Pavilion Sites	9.00am – 9.00pm	9.00am – 9.00pm	9.00am – 7.00pm
General Outdoor Sites	9.00am – 9.00pm	8.00am – 9.00pm	8.00am – 5.00pm
Traders Lane	9.00am – 9.00pm	8.00am – 9.00pm	9.00am – 8.00pm
Eat Street	9.00am – 9.00pm	8.00am – 9.00pm	9.00am – 9.00pm
Grazing Alley	9.00am – 9.00pm	8.00am – 9.00pm	9.00am – 8.00pm
Machinery Alley	9.00am – 9.00pm	8.00am – 9.00pm	8.00am – 5.00pm

Short staff or meal breaks are of course expected, but your Site should not be substantially closed during required operating hours. We are a 3-day Show and our visitors deserve a full Show experience no matter what time they enter.

Do not dismantle your Site or leave the Show early unless specifically authorised by GDSS.

12. STAFF PASSES

Each Site will receive the number and type of Site Holder passes specified by GDSS.

INCLUDED PASSES: 2 X 3-day pass
ADDITIONAL PASS COST: $15+GST per additional 3-day pass
ORDER DEADLINE: April 29th, 2027
COLLECTION LOCATION: Gympie Show Society Office

Passes are for authorised Site Holder personnel only.

They must not be duplicated, altered, resold or passed to unauthorised persons.

A staff pass does not automatically provide vehicle access to the Site Holder parking area at the Showgrounds.

13. SHOW-DAY VEHICLE ACCESS AND RESTOCKING

For patron safety, vehicle movement through the Showgrounds is strictly controlled once the Show is operating.

All Site Holder and service vehicles must be off the public Showgrounds by 8.00AM each Show day.

Where morning restocking is permitted:

a. enter only through the approved gate;
b. follow traffic-controller instructions;
c. observe the Showgrounds speed limit of 10kmph;
d. complete the delivery promptly; and
e. exit before the vehicle-clearance deadline.

Once the Show is open, vehicle access may be prohibited except where specifically authorised.

14. PARKING

Site Holder passes do not entitle vehicles to remain beside Sites during Show operating hours unless the vehicle forms part of an approved display.

Site Holder Parking: Site Holders will be allocated one parking space per day in a designated Site Holder parking area on a first come, first served basis. Any additional vehicles must be parked in General Parking.

Please allow sufficient time to park and walk to your Site before opening.

15. ELECTRICITY

Show-supplied power is only available where it has been requested and approved.

Your Site Allocation will identify your approved power requirements.

Supply may include: **10 amp • 15 amp • three-phase,** depending upon location and availability.

Please do not assume additional electrical capacity will be available once bump-in has commenced.

Site Holders using Show power must:

a. provide their own suitable extension leads;
b. ensure equipment is compliant and in sound condition;
c. ensure testing and tagging is current where required;
d. keep electrical equipment protected from patrons and weather;
e. prevent leads from creating trip or vehicle hazards; and
f. not alter Show electrical infrastructure.

GDSS or an authorised electrical contractor may disconnect equipment considered unsafe or likely to overload available infrastructure.

16. GENERATORS

Generators may only be used where approved by GDSS. They must be compliant, safely located and maintained, protected from public access and operated so they do not create an unreasonable noise, fume or safety issue for neighbouring Site Holders or patrons. GDSS may direct that an unsafe or disruptive generator be shut down.

17. WATER

Water access varies throughout the Showgrounds and is not available at every Site.

2027 Water Points/Arrangements: Water access must be requested during the Site Holder Application process and is dependent upon availability. Site Holders are to provide their own hose, fittings and connections.

Where water access is approved:

a. use suitable hoses and connections;
b. do not interfere with Showground infrastructure;
c. ensure hoses do not create trip hazards; and
d. do not connect to another Site Holder's service without approval.

Food Vendors remain responsible for meeting the water requirements applicable to their own food operation.

18. RUBBISH, RECYCLING AND SITE CLEANLINESS

Site Holders are responsible for keeping their Sites clean throughout the Show and leaving them clean following bump-out.

General and recycling bins will be located throughout the Showgrounds.

Commercial quantities of rubbish, packaging, pallets, equipment or stock must not be abandoned at the Showgrounds.

We encourage Site Holders to:

a. minimise unnecessary packaging;
b. use recyclable or lower-waste alternatives where practicable;
c. separate recyclable material correctly; and
d. help us reduce contamination and unnecessary waste to landfill.

19. GREY WATER, WASTEWATER, OIL AND GREASE

Grey water, wastewater, fats, cooking oil, grease and other liquid trade waste must **never be discharged onto the ground, into stormwater, toilets or an unauthorised drain.**

Site Holders must appropriately contain and dispose of waste generated by their operation.

Food Vendors must remove cooking oils and other trade waste unless GDSS has provided an approved disposal arrangement.

Any additional cleaning, waste removal or remediation required because of inappropriate disposal may be charged to the Site Holder.

20. FOOD VENDORS

Food Vendors are a major part of the Gympie Show experience and are expected to maintain a high standard of food safety, cleanliness, presentation and customer service.

Food Vendors must hold and maintain all licences, approvals and registrations applicable to their operation and must provide evidence when requested.

Authorised Council officers may undertake inspections before or during the Show.

Your Site should have all facilities and equipment required for your food operation, including appropriate food preparation, storage, refrigeration, handwashing, cleaning and waste management arrangements.

21. YOUR APPROVED FOOD OFFERING

GDSS does not approve every individual item on a Food Vendor's menu.

Your approval relates to the general food offering described in your application, together with any specific exclusions advised to you by GDSS.

For example, GDSS may approve a vendor's overall offering while specifically advising that a particular product category cannot be sold because an established specialist vendor has already been selected for that offering.

You may make reasonable menu changes within your approved food offering without seeking approval for every item.

However:

If GDSS has specifically excluded a product or category from your approval, you must not sell it without prior permission.

If you want to make a significant change to the type of food you are offering, please contact the Space team before the Show.

This allows GDSS to maintain the variety and balance of food choices that informed the original vendor selection.

22. FOOD VENDOR WASTE

Food Vendors are responsible for their:

a. food scraps;
b. packaging;
c. wastewater;
d. fats;
e. oils;
f. grease; and
g. other waste generated through their operation.

Keep waste contained and do not allow food waste or liquids to create smells, pests, contamination or slip hazards.

23. LPG, GAS AND FUEL

Where LPG, gas or fuel forms part of your approved operation, you must comply with all applicable safety, licensing, certification and regulatory requirements.

Any certificates or documentation requested by GDSS must be current and available when required.

Equipment must be maintained in a safe condition and protected from public access.

GDSS may prohibit the use of any equipment or installation where required documentation is unavailable, or a safety concern is identified.

Additional restrictions may apply to Indoor Sites.

24. FIRE SAFETY

Site Holders must have fire-safety equipment appropriate to the activities being undertaken at their Site.

Emergency exits, firefighting equipment, roads and emergency-access routes must remain clear at all times.

Never place stock, rubbish, signage or equipment:

a. in front of an emergency exit;
b. across an emergency-access route; or
c. where it obstructs firefighting equipment.

25. MACHINERY, VEHICLES AND TRADE DISPLAYS

Machinery, agricultural equipment, vehicles, implements and similar displays must be presented so they are safe for patrons.

Site Holders are responsible for ensuring equipment remains stable and that controls, moving components or other potential hazards cannot be inadvertently accessed by the public.

Any active demonstration must have prior GDSS approval.

GDSS may stop a demonstration or require a display to be modified where a safety concern is identified.

26. WORK HEALTH AND SAFETY

Safety is everyone's responsibility.

Site Holders must take reasonable steps to ensure their Site, equipment and activities do not create a risk to:

a. patrons;
b. employees;
c. volunteers;
d. contractors;
e. neighbouring Site Holders; or
f. other Show participants.

Identify and deal with hazards as they arise.

If you see a significant hazard outside your own Site, please advise GDSS.

27. INCIDENTS AND NEAR MISSES

Please immediately notify GDSS of any significant:

injury • illness requiring assistance • near miss • fire • gas leak • electrical incident • property damage • spill or other serious safety incident

If emergency assistance is required, contact emergency services on **000**, then advise the Show Office / Security so Show personnel can assist emergency responders.

GDSS Incident Contact: [TO BE CONFIRMED]

28. FIRST AID

Qualified First Aid personnel will be available during Show operating hours.

First Aid Location: [TO BE CONFIRMED FOR 2027]

First Aid Contact: [TO BE CONFIRMED FOR 2027]

All significant first-aid incidents associated with a Site should also be reported to GDSS.

29. EMERGENCY PROCEDURES

Every Site Holder should ensure staff understand what to do if an emergency occurs.

If directed to evacuate:

1. cease operations;
2. follow directions from GDSS, Security or emergency services;
3. assist patrons where it is safe to do so;
4. proceed to the nominated assembly area; and
5. do not return until authorised.

Emergency Assembly Areas: [2027 MAP TO BE CONFIRMED]

Emergency access routes must remain clear at all times.

30. SEVERE WEATHER

Weather conditions can change rapidly.

GDSS may alter Show operations, access arrangements or Site requirements because of wind, storms, heavy rain, heat or another weather-related safety concern.

Site Holders must comply with directions relating to temporary structures, displays and trading operations.

Where necessary, GDSS may direct Site Holders to:

a. secure or modify a structure;
b. remove walls or attachments;
c. lower or dismantle a temporary structure;
d. cease trading;
e. leave a Site; or
f. evacuate an area.

31. SECURITY AND PERSONAL PROPERTY

GDSS may provide general Showground security, however this is **not individual security for your Site.**

Site Holders remain responsible for securing their own:

cash • stock • tools • machinery • vehicles • equipment and personal belongings.

Avoid leaving valuables visible or unsecured overnight.

32. SIGNAGE AND PROMOTION

Signs, flags, banners and promotional material associated with your business should remain within your Site unless otherwise approved.

They must be safely secured and must not obstruct:

a. walkways;
b. visibility;
c. adjoining Sites;
d. roads;
e. emergency access; or
f. Show signage.

Do not conduct canvassing, leaflet distribution, sampling or other promotional activity away from your Site without GDSS approval.

33. SOUND, MUSIC AND ENTERTAINMENT

Site Holders may not use loudspeakers, PA systems, amplified music or similar equipment without approval.

Any approved sound must remain at a level that does not interfere with adjoining exhibitors, animals, Show entertainment or official announcements.

Site Holders must not independently engage or stage performers or entertainment without GDSS approval.

34. PRODUCTS, SERVICES AND DISPLAYS

Your Site has been approved based on the business, products, services or display described in your application.

You do not need GDSS approval for every ordinary variation within your approved business offering.

However, you must obtain approval before making a **material change to the nature of your Site or business offering.**

GDSS may require the removal of a product, service or display that:

a. is significantly different from the approved application;
b. has been specifically excluded;
c. presents a safety concern;
d. is unlawful;
e. is unsuitable for the Show environment; or
f. materially interferes with another Site or Show activity.

35. SITE HOLDER CONDUCT

We want the Gympie Show to be welcoming for everyone.

Site Holders and their personnel are expected to treat:

patrons • volunteers • GDSS staff • contractors • other Site Holders and fellow Show participants

with respect.

Abusive, threatening, discriminatory, seriously disruptive or unsafe behaviour may result in the person being required to leave the Showgrounds.

This aligns strongly with GDSS's strategic values of **Respect, Stewardship, Growth, One Connected Show** and **Community**.

36. SMOKING, VAPING AND ALCOHOL

Site Holders must comply with all GDSS and legal requirements concerning smoking, vaping and alcohol.

Smoking and vaping are not permitted at Site Holder Sites and may only occur in designated areas where applicable.

Alcohol may only be consumed or supplied in authorised areas and in accordance with applicable requirements.

2027 Designated Areas: Refer to Showgrounds Map.

37. ANIMALS

Animals must not be brought onto a commercial Site unless they:

a. form part of an approved exhibit or display;
b. have prior GDSS approval; or
c. are otherwise lawfully permitted, including assistance animals.

Site Holders are responsible for approved animals associated with their operation.

38. ACCESSIBILITY AND CLEAR PATHWAYS

The Gympie Show aims to provide an inclusive experience for patrons.

Please help us by ensuring:

a. walkways remain unobstructed;
b. signs and displays do not narrow pedestrian routes;
c. ropes, weights, leads and hoses are positioned safely;
d. accessible routes are not blocked; and
e. service areas do not extend into public pathways.

Improving accessibility and inclusion is specifically identified within GDSS's strategic direction for exceptional Show experiences.

39. MEAL VOUCHERS - FOOD VENDORS

GDSS may provide authorised meal vouchers to volunteers or other approved personnel.

2027 Voucher Value: $[TO BE CONFIRMED]

Redemption/Reimbursement Process: [TO BE CONFIRMED]

Participating Food Vendors will receive details before the Show.

40. BUMP-OUT

Bump-Out Date: From Saturday 15th May
Vehicle Access From: Machinery Alley – 4.00pm unless approved otherwise.
All other Precincts – 9.00pm unless approved otherwise.

Do not dismantle or remove your Site before the authorised time.

Even if your trading area has become quieter, patrons may still be moving through the Showgrounds and premature pack-down creates both presentation and safety issues.

Vehicle access will only commence when GDSS considers the relevant area safe.

When leaving:

1. completely remove your stock;
2. remove all structures and equipment;
3. take signage and electrical leads;
4. remove commercial waste;
5. remove oil, grease and wastewater;
6. leave the Site clean;
7. report any damage; and
8. follow traffic directions.

HIGH-VISIBILITY CLOTHING – MANDATORY DURING BUMP-OUT

High-visibility safety clothing must also be worn by all Site Holders and their personnel or contractors during bump-out while vehicles, machinery and equipment are moving through the Showgrounds.

41. BEFORE YOU LEAVE - FINAL SITE CHECK

Before departing the Showgrounds, please check:

1. All stock has been removed
2. Marquees and structures have been removed
3. Power leads and equipment have been collected
4. Signs and banners have been removed
5. Rubbish has been removed or correctly disposed of
6. Food waste has been removed
7. Oil, grease and wastewater have been appropriately removed
8. The Site has been left clean
9. Any damage has been reported
10. Hired or GDSS equipment has been returned
11. You have followed the approved vehicle exit route.

THANK YOU FOR BEING PART OF 150 YEARS

Every Site Holder contributes to the atmosphere and character of the Gympie Show.

In our 150th year, we are celebrating not only the history of the Show, but the thousands of people who have built it, supported it and brought it to life - and the people who will carry it forward.

Thank you for helping us create a Show that is welcoming, safe, engaging and proudly connected to the Gympie Region.

ONE SHOW. STRONG FUTURE.
